diction of Hartranft's Election. WASHINGTON, October 7. The Star (Republican) publishes the follow-Ing dispatch from Philadelphia: "The elec-tion to-morrow is the only thing thought of, or talked of. There is a general standatili in business, and every one is preparing for to-morrow. So far as this city is concerned the canyass of the Republicans is the most thorcanvass of the Republicans is the most thorough and systematic ever made. I am sorry I cannot say the same for the State. It is generally acknowledged that the Republican State committee is a very inefficient one, and its canvass has been a series of blunders. This with the unpopularity of Hartranft, the Republican candidate for governor, has had a despairing effect, but fortunately all this was understood early in the campaign, and every effort was made to counteract it. There are few Liberal Republicans in the State, and if an unobjectionable man had been placed in nomination for the governorship the Republicans would sweep the State by at least thirty thousand majority. There seems to be doubt, thousand majority. There seems to be doubt, however, of Hariranit's election, and in the nowever, of Hartranit's election, and in the pool sales he is the choice by one hundred to eighty. Even bets are made that he will have 10,000 majority in the State. Buckalew is expected to come to the city with 5000 majority, and Hartranft, it is said, will carry this with by 15,000 majority. Some party the saids jority, and naturally some put it as high eity by 15,000 majority. Some put it as high as 17,000, and none lower than 10,000. These are the calculations of the Republican committee. The Democrats, on the other hand, claim that Buckalew will come to the city with 20,000 majority, and that the city will not with 20,000 majority, and that the city will not give Hartranit over 10,000 majority, thus electing Buckalew by 10,000. The indications are that the Republican estimate is the correct one, and betting men are using it as their basis of operations. The total registration in the city is 162,000, an increase of thirty thousand over last year's election, when the State ticket had 12,000 majority in the city. The Democrats have majority in the city. The Democrais have been demoralized in the city, and have aimed all their efforts to the State. The Republicans all their efforts to the State. The Republicans have taken advantage of this and their work will certainly make Hartranit successful. That the Democracy have colonized a large number of men from Baltimore and New York in mining districts there is no doubt. The Republicans, however, have organized a strong detective force which has been detailed to watch and prevent sporting men from to watch and prevent sporting men from voting. Sporting men from all parts of the country are here, with John Morrisey and John Chamberlain at their head. There are

An Attempt to vo the Bayonet Law in the Keystone State.

PHILADELPHIA, October 7.

A special session of the Supreme Court was held to-day, Judges Strong, McKenna and Cadwallader; on the bench. The following question, growing out of the report that rendulent naturalization papers were in existence, was propounded: Whether when, in the event of a man offering to vote upon a naturalization paper purporting to have been issued out of the proper office in Philadelphia, which paper is known to be fraudulent, in consequence of his not having been to Philadelphia during that time, the deputy United States marshal can arrest such a person so offering and endeavoring to vote upon the PHILADELPHIA, October 7. offering and endeavoring to vote upon the spot and take him before the United States mmissioner? Judge Strong, the other dges concurring, said: "The eighth section of the act of Congress of February 28, 1871, defines very clearly the duty of the marshal and deputy marshals, and I know no authority in this court by which I can instruct

SPARING UNCLE SAM.

An Important Decision by the Mixed Commission.

WASHINGTON, October 7. The British Commission decided an important principle in two cases for tobacco burned at Bichmond. The claimants (Scotch merchants) alleged themselves the owners of the tobacco in question at the outbreak of the war; that the President, by the proclamation of blockade, and the Congress by the non-intercourse act of June 18, 1861, prevented their removal of the same, although under the president was The British Commission decided an importtheir removal of the same, although under the non-intercourse act the President was permitted to license special and limited trade with the insurrectionary districts, and, as the claimants alleged, such triots, and, as the claimants alleged, such licenses were given those willing to take an active part against the rebellion in preference to aliens and neutrals. The claimants charged the subsequent destruction and loss of their tobacco to this prevention of removal by the United States, and claimed the United States to be liable therefor. On demurrer to the memorials, the commission decided against the claims, holding in effect the proc-lamation of blockade, the non-intercourse act and the practice of the United States under them to be lawful acts of war within the law of national it this claim could have been sus-tained, the United States would be made liable for an immense amount of property in the South, owned by allens at the outbreak of the war. The Southern Claims Commission commenced its sessions to-day.
